

Marseille solar tiles

What are volt solar tiles?

Introducing Volt - Australian engineered roof solar tiles. Volt solar tiles integrate with Bristile Roofing's Terracotta Planum and concrete Prestige, Premiere and Eton profiles. Roof sarking helps protect your roof from wind driven rain and draughts, as well as providing compliance to BAL bush fire ember attack.

Are Bristile roof tiles sustainable?

Committed to sustainability, Bristile Roofing uses environmentally friendly non-solvent based coatings on our roof tiles. A good concrete or terracotta roof tile lasts a long time, reduces energy consumption, offers fire resistance, and all-year-round insulation and protection for you and your loved ones.

Are Monier terracotta roof tiles salt safe?

Offering the colour longevity, strength, and durability of terracotta, the Marseille is ideal for homes of distinction. Monier Terracotta roof tiles are ideal for coastal locations that endure the wind, spray and salt of the ocean. All Monier Terracotta roof tiles are salt safe and will not corrode over time.

Why are Bristile roof tiles so popular in Australia?

There's a good reason why our roof tiles remain one of the most enduring roofing materials in Australia; they're designed to be visually powerful and last a lifetime. Committed to sustainability, Bristile Roofing uses environmentally friendly non-solvent based coatings on our roof tiles.

Is Marseille terracotta a good choice?

Offering the colour longevity, strength, and durability of terracotta, the Marseille is ideal for homes of distinction. The product images on this website give a general indication of colour for your preliminary selection. We recommend current product samples are viewed before making your final selection.
