News April 17, 2025 News April 17, 2025 News April 17, 2025 Premium Features, Analysis, Interviews April 17, 2025 News April 17, ...

The European Commission (EC) on Friday approved, under EU state aid rules, a EUR-150-million (USD 161m) scheme in Slovenia that aims to support the expansion of renewable energy, heat and energy storage.

Officially inaugurated a few weeks ago in Slovenia, the first Tesla Powerpack installation in the Balkans took just a few months from April to August to construct, the company behind the project has said. Energy-Storage.news reported on the official switch-on of the 12.6MW / 22MWh lithium-ion battery system last week, by locally-headquartered ...

Mercados - Aries International have been engaged by @ELES - the electricity Transmission System Operator of @Slovenia as Consultant for the implementation supervision of a large-scale Battery Energy Storage System (@BESS) to be connected to Slovenian power grid. This investment is part of the innovative international smart-grid @SINCRO.GRID Project, ...

Slovenia Energy Storage Project

The growing penetration of renewable energy and electric vehicles will require new solutions to reduce imbalances in the energy market. One of the companies addressing this challenge is NGEN, an enterprise based in north ...

The country is also trialling a cross-border grid synchronisation programme using 50MWh of battery storage with neighbouring Croatia, in a project which is also partially EU-funded. Energy-Storage.news" publisher ...

Slovenia targets 400 MW in BESS, 100 MW in electrolyzers and more pumped storage in the updated Integrated National Energy and Climate Plan.

GSL ENERGY"s 480kWh BESS project in Slovenia showcases how renewable energy solutions can deliver tangible value to businesses. By prioritizing efficiency, reliability, and scalability, this system helps organizations reduce their carbon footprint while s ... GSL ENERGY Delivers a 480kWh C& I BESS Battery Energy Storage System in Slovenia.

Daxing International Airport Solar and Energy Storage Project Location: Beijing, China. As part of the new airport"s build, Daxing has an integrated project within it combining solar power generation with energy storage. This ensures a stable and sustainable energy supply for the airport, which opened in 2019. Featuring solar power generation ...

NGEN installed a 12.6MW / 22MWh battery project in north-western Slovenia last year and held an official launch event in October 2019. Company press representative Mirjam Bernard told Energy-Storage.news today that the second project, this time using Tesla"s larger and newer Megapack product, has also successfully been completed.

In October 2020, the Slovenian energy solutions company NGEN launched the largest battery storage system (BESS) in Slovenia and the region at the Talum facility in Kidricevo, north-east Slovenia. The 15 MW, 30 MWh system was the second Powerpack installed by NGEN after a 12.6 MW, 22.2 MWh BESS was launched last autumn at the Acroni steel

Energy-Storage.news provided a detailed look at where winning projects were located within Spain in our coverage of the auction results. Some 186MWh of the energy storage projects awarded funding are located in the Canary Islands. Iberdrola didn"t reveal which company would provide the lithium-ion BESS units for the six projects.

The European Commission has approved a EUR150 million Slovenian scheme to support the rollout of renewable energy and heat as well as energy storage, in line with the Green Deal Industrial Plan.. The scheme was approved under the State Aid Temporary Crisis and Transition Framework, adopted by the Commission on 9 March 2023 to support measures in ...

Slovenia Energy Storage Project

A 10MW/50MWh battery energy storage system (BESS) spread across two substations in Slovenia has started a trial and testing period. The BESS projects are located at the Okroglo ...

June 15, 2023: The European Commission said on June 9 it had approved a EUR150 million (\$163 million) state-aid scheme to develop battery storage and renewables in Slovenia.

Slovenia's natural gas infrastructure company Plinovodi hopes to work with Hungary's FGSZ to construct a new gas interconnector to link Hungary and Slovenia, a project the EU has designated as a Project of Common Interest and which qualifies for funding through the Connecting Europe Facility.

Developer NGEN is deploying the largest battery energy storage systems (BESS) in Slovenia, Austria and Croatia, and wants to take its model beyond CEE too, CEO and co-founder Roman Bernard said.

The project in Slovenia is testimony to Tesla's growing list of energy storage systems across the globe. Last month, Tesla CEO Elon Musk said he hoped that his company would increase its overall ...

Slovenia is also currently on the verge of adopting the Strategy for Phasing out Coal. Meanwhile the issue of the energy permit for the NEK2 nuclear power project means Slovenia is faced with difficult decisions regarding that investment. With a growing number of renewable sources of energy comes the need to set up energy storage facilities.

Slovenia energy storage project belongs to. Home; Slovenia energy storage project belongs to; The European Commission has approved a EUR150 million Slovenian scheme to support the rollout of renewable energy and heat as well as energy storage, in ...

Slovenian and Croatian TSOs and DSOs are implementing Europe's first bilateral flexibility and voltage control project. Battery storage systems at substations Okroglo and Pekre in Slovenia have started trial operations within a joint endeavor with Croatia. The two units have 5 MW each and a storage time of five hours, translating to 50 MWh in ...

HSE, or Holding Slovenske Elektrarne, aims to have 175MW of flexibility resources online by 2030 before nearly quadrupling that number by 2035. The 800MW will be made up of 590MW of pumped hydro energy ...

slovenia energy storage. In our second webinar, we focused on the three energy management tools developed in the Store4HUC project. ... A collaboration project with my friend Uros Smrdel, the Slovenian Woodworker channel, each making a ...

The largest battery energy storage system (BESS) in Slovenia and the region was launched on Thursday at the Talam facility in Kidricevo, north-east Slovenia. The 15 MW, 30 MWh system is the second Tesla Powerpack installed by NGEN, an energy system solutions company established by Roman Bernard and Damian Merlak, after a 12.6 MW, 22.2 MWh BESS was ...
