

Algiers 21W solar street light

Are solar street lights the future?

Solar street lights are indeed the light of the future. With smart PIR sensors that modify lighting according to human presence, and an all-in-one design that combines solar panel, LED light, and battery, this solar street light is truly advanced. It requires no trenching, cabling, or wiring, making it an ideal solution for the future.

How is the solar street light protected?

The solar street light is protected against short circuit, reverse polarity, lightening. It also has an automatic ON-OFF system and an LED display to indicate the charging status of battery. The housing is made of epoxy powder coated pressure die-cast aluminum with a weatherproof gasket and toughened clear glass cover fixed with SS screws.

What are the different types of solar street lights?

Bajaj Electricals offers various types of solar street lighting systems, including Solar Street Light, Solar Street Light with Decorative Poles, Solar Semi Highmast, Centralised Solar Street Light, Solar Roof Top system, Solar Portable Compact Kit, Solar Pump, Solar Panel, and Solar Power Conditioning unit.

What is a solar street light with decorative poles?

A Solar Street Light with Decorative Poles is one of the types of solar street lights available. Other types include Solar Street Light, Solar Semi Highmast, Centralised Solar Street Light, Solar Roof Top system, Solar Portable Compact Kit, Solar Pump, Solar Panel and Solar Power Conditioning unit.
