

# American portable power supply manufacturers

Where are portable generators made?

We did the research to find portable generators made in the USA. People have different needs when purchasing a generator: backup power supply, camping, power tools, and many others.

Where are Acopian power supplies made?

All Acopian products are made in the USA. And we provide personal, unsurpassed customer service. Reliable. We focus on making power supplies that will last. You may find power supplies that are cheaper than ours, but you won't find any that are built as well or last as long.

Is the generator made in the USA?

Before shopping for a generator made in the USA, it's essential to understand what "made in the USA" means. According to the Federal Trade Commission (FTC), a product must be all or virtually all made in the United States to qualify for the "made in the USA" label.

Which country makes the best steel for portable generators?

Steel is one of the essential materials used in portable generators. The USA ranks fourth in the world's steel production, and the steel manufactured here is considered some of the best in the world. Although China is the world's largest steel producer, many American steel manufacturers produce high-quality steel.

What should I look for when buying American-made portable generators?

When shopping for American-made portable generators, look for labeling that states the product was made in the USA. This is a great help in weeding out foreign-made products. Title 19 Chapter 4 Section 1304 of the United States Code requires that all products made abroad must be labeled accordingly with the country of origin.

How long does it take Acopian to ship power supplies?

For more than 50 years, Acopian has been building and shipping AC-DC and DC-DC power supplies within three days after receipt of an order. Learn more about Acopian's promise to Ship Within 3 Days. Custom Power Solutions--Any Way You Want. Because our power supplies are made in the USA, we have complete control over the manufacturing process.
