

Georgia 6m solar street light

Are solar streetlights available in Georgia?

****SLI reserves the right to change any part specified,at any time,to meet system requirements and availability.****Georgia has the perfect climate for commercial solar streetlights. See our solar light pole installations in developments around the Atlanta area.

Where are solar street lights made?

Designed and assembled in the United States,our installations have been tested around the world in some of the harshest environments. We're now bringing them to the heat,high humidity,and sea salt air of Georgia's southern environment - the perfect conditions for maximizing returns on a solar street light installation.

Are solar panels good for street lights?

Our solar panels deliver up to 50% more power per unit area and have a reduced voltage-temperature coefficient. They also excel in high temperature and low-light conditions,which means they begin producing power sooner and continue producing power longer,guaranteeing a reliable source of energyfor your street light.

Do Georgia neighborhoods have the same lights?

Georgia neighborhoods have the same lights they have had for 40+years. Only you are paying more now than ever for the same old,outdated lighting. The utility rarely provides upgrades to lights without a new,more expensive 5 or 10-year contract.
