

New Zealand inverter 72 to 220

Hybrid. A Hybrid Inverter works in conjunction with your solar battery to convert and direct energy to where it is needed (either to appliances; or to/from your battery; or to/from the grid). The Hybrid Inverter enables you to optimise the amount of power you generate and consume, and minimise transfer of energy to/from the grid or generator power.

A voltage converter (also known as a power converter or voltage transformer) is an electric power conversion device which is used to change the electrical output of a power source. The most common use for these converters is to change the voltage from 220 volts down to 110 volts, or from 110 volts up to 220 volts. When an electronic device, appliance or power tool was built for ...
