

Outdoor power supply installation in Central Africa

Where is Central African Republic launching a new solar park?

BANGUI, November 17, 2023 - Today, the Central African Republic is launching a new 25-megawatt solar park with battery storage in Danzi village, located around 18 kilometers from Bangui. The park will supply electricity to 250,000 persons in the capital, almost doubling the country's electricity generation capacity.

Will Central African Republic have electricity by 2030?

By 2030, almost half of the population of the Central African Republic should have access to electricity, compared to only 16% at present. Today, the Central African Republic is launching a new 25-megawatt solar park with battery storage in Danzi village, located around 18 kilometers from Bangui.

Why is Central African Republic investing in electricity?

With an electrification rate of 35% in Bangui, 8% in the main provincial cities and towns, and only 2% in rural communes, the Central African Republic has invested in the energy sector as an engine of development to increase access to electricity and promote sustainable growth.

Who can join the African Power Platform?

Developers, power producers, ministries, utilities, regulators, financiers, and other like-minded individuals can join APP to share possible solutions and ideas on how to solve Africa's lack of electricity. The platform helps circulate and propagate tenders, intelligence and business opportunities to its members.

Can solar power be used in Kenya?

The use of solar PV technology in Kenya has been developing during the last three decades. A few mini-grids have been established, supplying electricity produced by micro hydropower and/or diesel generators in rural areas.

How is Ikisaya Energy Center operated?

The energy center is operated and managed through a community based organization (CBO), the Ikisaya Energy Group, which was formed on the initiative of the community. The energy center is registered with the local authority as a business entity and operated as such.
