

San Salvador photovoltaic panels wholesale factory direct sales

Where to buy wholesale solar panels?

If you are looking for a place to buy wholesale solar panels, you've found it. A1 SolarStore offers PV modules from all over the world for competitive prices and with fast delivery. Let us tell you a little about the panels that we offer, how we deliver them and what kind of solar panel you might need.

Why should you buy a solar panel wholesale?

Whatever brand you pick, its solar panel wholesale price is lower than retail, so you end up saving a lot. Notice that at A1SolarSolar when it comes to the wholesale price of a solar panel, we show the cost per watt rather than per pallet or per panel.

Who makes Canadian solar panels?

The Canadian brand was founded by Chinese scientist Dr. Shawn Qu. The panels that the company offers for sale aren't too expensive, but they are quite powerful and perform well in low-light conditions, such as cloudy days, winter and fall. This Chinese company competes in the Top-5 world's largest solar brands.

What are the cheapest solar panels?

Notice that at A1SolarSolar when it comes to the wholesale price of a solar panel, we show the cost per watt rather than per pallet or per panel. Generally, solar market prices can be described like this: Asian panels, especially Chinese ones, are the cheapest ones. The most popular brands here are JA, LONGI, Trina Solar, ZNShine and many others.

Are REC Solar panels a good brand?

Norwegian brand REC is known primarily for its premium-class residential PV modules. However, it doesn't limit itself to this: the product line is wide enough that you can use wholesale REC solar panels for building a strong commercial system, small or large. REC products are known for high quality, great warranties and innovations.

What are the best solar panels for home installations?

There are also a few brands that offer premium-class PV modules for home installations. These include Panasonic Eco Solutions, LG, SunPower, REC, Solaria and a few others. Generally, it doesn't make much sense to build commercial systems out of them -- they are too classy and expensive for that.
