What is a solar light?

The self-powered solar light that harvests energy by day to light your home at night. This is a limited edition art piece, signed and numbered by Marjan van Aubel. Sunne is made from one long, curved strip of brass aluminum. Shaped like the horizon, the curve provides a larger surface area to allow for maximum solar cells.

How long do solar lights last?

The operational lifespan of interior solar lights is dependent upon numerous factors, along with battery pleasant, frequency of use, and charging situations. Typically: Solar panels final roughly 20-25 years with proper servicing. Rechargeable batteries within the lights usually closing 1-3 years earlier than needing alternative.

What is a Sunne solar panel?

Sunne is made from one long, curved strip of brass aluminum. Shaped like the horizon, the curve provides a larger surface area to allow for maximum solar cells. The solar side of Sunne contains SunPower Solar cells that harvest sunlight during the day, charging the integrated battery to power the light at night.

Why should you buy a solar light bundle?

Through efficient conversion of solar radiation, the panel ensures the lights provide continuous coverage throughout the darkest nights. The value created by this bundle cannot be overstated - with its four included units one can illuminate expansive grounds like driveways, decks or entire yards from a single purchase.
