

Somaliland Brand New Outdoor Power Supply

Can a microgrid increase solar power in Somaliland?

This project in Somaliland is one of the first in the world to use the company's patented Maximum Inverter Power Tracking (MIPT) technology to increase the share of solar power in microgrids. Hosted by BEC utility, Somaliland's power grid supplying the city of Berbera is being monitored and controlled using microgrid technology.

What is a microgrid in Somaliland?

Somaliland's power grid supplying the city of Berbera, home to the largest port in the horn of Africa, is being monitored and controlled using microgrid technology. The microgrid consists of two solar plants with a total capacity of 8MW, a containerised lithium-ion power storage system with a capacity of 2MWh and three modern diesel generators.

Does Berbera have a power grid?

Additionally, Berbera has its own airports to which Berbera Electricity Company (BEC) also supplies power. To improve the energy supply, solar photovoltaic power plants are being built in Somaliland to supplement the existing generators, in addition to other measures. But this development poses major challenges for the power grid.

Somaliland's main port, at the city of Berbera, accounted for two-thirds of the country's revenues in 2020. Over the years, these revenues have mostly gone into the central state coffers...

GPU compatibility dilemma brewing as more high-end power supplies ditch 8-pin connectors in favor of new 16-pin Super Flower's beastly 2800W power supply lands at \$899 -- enough juice to power ...
