

Southeast Asia Solar Water Pump Manufacturer

How solar water pumping system works in Bolivia?

Solartech partner in Bolivia installed a solar pumping system for a local farmer. They select Solartech original solar water pump inverter 3.7KW PB-G2 series, which can drive a 2.2KW water pump with a head of 100 meters to pump water from the well to the water tower for water storage.

Where are samking solar pumps made?

They also have established agents in the UK, Pakistan, Thailand, and Morocco, further strengthening their global presence. Samking is the only manufacturer in China that focuses on water-cooling solar pumps. These products are not only more cost-effective but also environmentally friendly.

Who is Feili water pump?

Feili is a factory dedicated to water treatment and solar pumps, with a strong focus on markets in Southeast Asia, Africa, and China. In addition to solar pumps, their product range includes solar lights, aerators, submersible pumps, and sewage pumps.

What is a solar water pump?

A: Agricultural irrigation: Solar water pumps are an integral part of agricultural irrigation systems. They use solar energy to pump water from deep wells, lakes or rivers and deliver it to farmland for irrigation. This irrigation method not only improves irrigation efficiency, but also reduces energy consumption and environmental pollution.

What is a solar water pumping inverter?

The photovoltaic pumping inverter is another key component in the solar water pumping system. Its main function is to convert the DC power generated by the photovoltaic array into AC power to drive the water pump.

Who is Solartech envoy & water porter?

Contact SOLARTECH to get the customized solar pumping system solutions! Shenzhen solartech being solar envoy, water porter, is a professional manufacturer of solar pumping systems. We provide a variety of solar technology energy and solutions to meet your needs.
