REC TwinPeak BLK Series solar panels feature an innovative design using 120 laser cut polysilicon HC solar cells. This results in higher panel efficiency which can provide over 12 watts more power output per panel than traditional polycrystalline technologies. This means optimum use of valuable roof space and reduced balance of system costs.

Monocrystalline. Monocrystalline solar cells are the oldest type of solar cell.. While they cost more per watt, they are the most efficient solar cell available.. Because of their higher efficiency rating, the monocrystalline solar panels are perfect for homes and businesses alike and especially for properties with little roof space.. They also perform better in heat and low light conditions ...
