

Uninterruptible power supply sales in Vietnam

How is the Southeast Asian uninterruptible power supply market segmented?

The Southeast Asian uninterruptible power supply (UPS) market is segmented by capacity, type, application, and geography. By capacity, the market is segmented into less than 10 kVA, 10-100 kVA, and above 100 kVA. The market is segmented by type into standby UPS systems, online UPS systems, and line-interactive UPS systems.

How will Vietnam's ups market change in 2024?

Building works for Phase II are expected to begin in 2024. Such growth and investments in Vietnam indicate the rise in the manufacturing sector, which in turn, is expected to increase the demand for UPS systems during the forecast period. The Southeast Asian uninterruptible power supply (UPS) market is moderately fragmented in nature.

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) is a power quality device that provides continuous and stable power to a critical system load.

What is the demand for a standby UPS system?

Overall, the demand for standby UPS system is primarily expected to come from consumer electronics as an offline UPS system provides the least expensive power backup and protection to the devices, and it is likely to increase during the forecast period due to the increasing demand for desktop PC and gaming consoles.

What is Vietnam's new national industrial policy?

Vietnam, in September 2020, issued its New National Industrial Policy, Resolution No. 23-NQ/TW. The policy outlines the country's plan to increase the share of the industrial sector in their GDP to more than 40% by 2030. In this, manufacturing and processing industries are likely to account for around 30%.
