It depends on what "better" means for you. Here are some ways to compare a 110v and a 220v mini split: System Cost Typically, a 220V mini split system will have a higher upfront cost than a 110V model of the same brand, BTU, and SEER rating. This price difference is largely due to the more powerful components required for a 220V system.

Times, A portable intelligent outdoor power 300 w, fine aluminum not easily scratched appearance, multiple output, meet the demand of charge multiple devices, with a-class car batteries, more stable performance, ...
